

Make practical AI safety available where people live, learn, and work.

Partner with the AI User Safety Initiative to host a program, implement institutional learning, fund access, or co-create research and policy work.

PUBLIC MISSION	Clear audience path	Appropriate offer	Shared outcome
----------------	---------------------	-------------------	----------------

Four ways to partner

01 Host partner

WHO IT IS FOR

Associations, colleges, municipalities, schools, faith organizations, nonprofits, and employers.

PARTNER CONTRIBUTION

A defined audience, local context, coordination, venue or platform, and promotion.

AI USER SAFETY PROVIDES

Keynotes, executive briefings, community sessions, staff workshops, and regional events.

SHARED OUTCOME

An accessible learning experience with practical skills and a clear next step.

02 Institutional implementation

WHO IT IS FOR

Institutions seeking ongoing AI literacy and user-level governance programs.

PARTNER CONTRIBUTION

Leadership sponsorship, participants, implementation context, and an internal point of contact.

AI USER SAFETY PROVIDES

Staff AI literacy, SAFE AI Framework implementation, curriculum integration, resources, and follow-up.

SHARED OUTCOME

A repeatable approach that strengthens judgment, boundaries, and responsible practice.

03 Sponsor or funding partner

WHO IT IS FOR

Corporations, foundations, civic institutions, and philanthropic organizations.

PARTNER CONTRIBUTION

Funding, audience or geographic priorities, community connections, and agreed recognition needs.

AI USER SAFETY PROVIDES

Community cohorts, school access, book distribution, Summit opportunities, and targeted programming.

SHARED OUTCOME

More equitable access with transparent program goals and reporting agreed in advance.

04 Knowledge and ecosystem

WHO IT IS FOR

Researchers, universities, policy organizations, associations, and complementary firms.

PARTNER CONTRIBUTION

Expertise, research capacity, distribution, convening power, or sector knowledge.

AI USER SAFETY PROVIDES

User-level safety expertise, the SAFE AI Framework, public education, and community perspectives.

SHARED OUTCOME

Useful research, policy, briefings, campaigns, or programming with clear ownership.

A practical path to partnership

Each engagement is shaped around the people served, the outcome sought, and what each partner can responsibly contribute.

1	Clarify Define audience, need, timing, and success.
2	Design Select the right format, resources, and responsibilities.
3	Deliver Facilitate a relevant, practical learning experience.
4	Reinforce Provide follow-up resources and agree the next step.

WHAT PARTICIPANTS LEAVE WITH

- A shared language for AI benefits, risks, and boundaries
- A method for evaluating AI-supported decisions
- Role-relevant actions that can be used immediately
- Reinforcement resources for continued learning
- A clearly defined institutional or community next step

SAMPLE 90-MINUTE AGENDA

- Context** - What responsible AI use requires now
- Framework** - Apply SAFE AI principles
- Practice** - Work through audience-specific scenarios
- Commit** - Set individual and organizational actions
- Continue** - Choose reinforcement and follow-up

START A PARTNERSHIP CONVERSATION

Share who you serve, the outcome you want, and the partnership model you are considering. Inquiries are reviewed personally, with a response within two business days.
